👤 TOMAS VASQUEZ

Summary

My name is Tomás Vásquez Quispe and I am specialized in the development and programming of web applications. I began my academic training at the university studying Informatics Engineering and later studying self-taught in online education platforms, first in EDteam and then in Platzi.
I am currently looking to insert working in the technology area. I am very self-taught and I constantly look for new challenges that challenge my abilities and help me grow.

💼 EXPERIENCE:

(no experience working in companies)
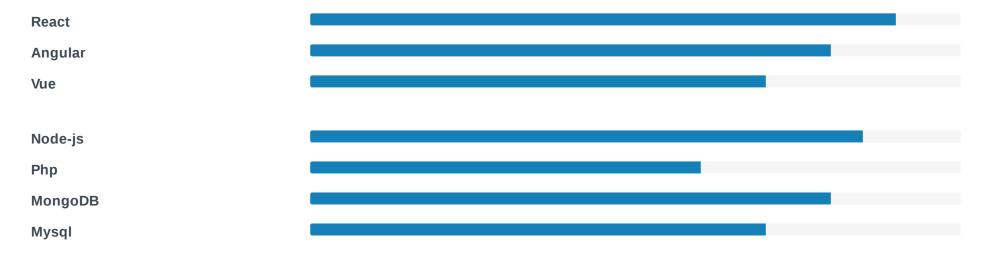

🗔 PERSONAL PROJECTS:

Open-Portafolio - customizable professional portfolio made with the purpose of helping my colleagues create their professional portfolio quickly and easily. I used React, GetsbyJs, Github-Api, react-particle-js and bootstrap, (get source).

Open-Academy - basic skeleton to create an online education platform,
(get code from frontend), (get code from backend), (get code from desktop aplication).

Social-Network-v123 - Social network in which I work with some friends, created with the purpose of becoming an online education platform, (get code).

You can see all my personal projects on my personal website: https://tomas-dev.com

🚀 TECHNICAL KNOWLEDGE:
